Professional Summary

GIS and Remote Sensing professional currently serving as Solution Specialist at Esri Bangladesh, with prior experience in spatial data quality management, geospatial database validation, and large-scale mapping coordination. Skilled in delivering ArcGIS Enterprise, ArcGIS Pro, and ArcGIS Online solutions, and in building web applications with ArcGIS Experience Builder and StoryMaps. Experienced in leading multidisciplinary teams, structured QA/QC frameworks, and Python-based automation for government, research, and private-sector geospatial initiatives.

Core Competencies

Esri Technology	ArcGIS Enterprise, ArcGIS Pro, ArcGIS Online, ArcGIS Experience Builder, ArcGIS StoryMaps
Web GIS & Storytelling	Interactive web app design (Experience Builder), narrative maps and geo-storytelling (StoryMaps), solution demonstrations
GIS & Remote Sensing	QGIS, ERDAS Imagine, ENVI, IDRISI Selva, Google Earth Pro
UAV & Photogrammetry	Pix4D, Agisoft Metashape, orthophoto generation, point cloud processing, DEM/DSM creation
Spatial Analysis	Cartographic design, geospatial modeling, LULC classification, change detection
Automation & Programming	Python, ArcPy, script adaptation & automation (AI-assisted), batch processing
Data Management	Spatial databases, QA/QC, data analytics, multi-source data integration
Visualization & Reporting	Tableau, SPSS, Adobe Illustrator, Adobe Photoshop, MS Office

Professional Experience

Solution Specialist | Esri Bangladesh | Jul 2026 – Present | Dhaka, Bangladesh | Full-time

- Deliver technical pre-sales support and demonstrations of ArcGIS Enterprise, ArcGIS Pro, and ArcGIS Online to government, private-sector, and NGO clients.
- Design and present interactive web applications using ArcGIS Experience Builder and narrative maps using ArcGIS StoryMaps to communicate spatial insights to stakeholders.
- Support implementation, configuration, and troubleshooting of Esri GIS solutions to drive successful client adoption.
- Conduct client training sessions and workshops on ArcGIS software to strengthen platform proficiency and long-term engagement.
- Collaborate with the sales team to assess client requirements and design tailored geospatial solution proposals.
- Serve as technical point of contact for post-sales queries, ensuring smooth onboarding and platform support.

Deputy GIS Specialist | Sheltech Consultants (Pvt.) | Dec 2024 – Jul 2026 | Dhaka, Bangladesh | Full-time

- Managed digitization QA/QC for mouza mapping and spatial databases, maintaining 90–95% data integrity, positional accuracy, and project compliance.
- Performed QC on geo-referencing, edge-matching, topology validation, and attribute accuracy for 2000+ map sheets using satellite and drone imagery, achieving <5% error rates and reducing rework by 35%.
- Coordinated updates for land-use/land-cover databases by validating and integrating multi-source satellite datasets for accurate land zoning outcomes.
- Developed Python scripts for automated QC validation, error detection, and batch processing (AI-assisted), improving QA efficiency by 30–40%.

GIS Data Quality Manager | Institute of Water Modelling (IWM) | Feb 2023 – Nov 2024 | Dhaka, Bangladesh | Full-time

- Led teams of 15+ (cartography, printing, digitization), ensuring spatial accuracy and consistency across Dhaka and Barishal Divisions with <7% error rate.
- Conducted QA/QC and validation of digitized maps and GIS databases, achieving 85–90% overall data accuracy and preventing costly rework.
- Implemented geospatial modeling and automation scripting, improving team operational efficiency by ∼25%.

GIS Business Development Executive | Shahriar GIS School | May 2019 – Aug 2024 | Dhaka, Bangladesh | Part-time

- Managed online workshops, website updates, social media campaigns, and promotional design, increasing course enrollment by 50%.
- Coordinated ambassador programs and strategic partnerships to expand GIS training reach.
- Analyzed marketing performance data to optimize strategies, boosting engagement and conversions by 40%.

GIS Expert | Group Mappers (DGHS: National Rabies Control Program) | Feb 2019 – Jun 2021 | Dhaka, Bangladesh | Full-time

- Delivered nationwide GIS/RS training to 150+ participants, improving field data accuracy by 30% and strengthening rabies surveillance.
- Managed Kobo Collect mobile data systems and GIS servers, enabling real-time tracking of 700+ field reports with data synchronization and quality control.
- Generated disease-risk and health facility maps to support policy decisions and outbreak response planning.

Technical Consultant | CEGIS | Mar 2021 – Apr 2021 | Dhaka, Bangladesh | Full-time

- Managed map procurement, digital conversion, and georeferencing for the National Population Census 2022.

Research Assistant | Mohammad Abdul Quader Research Group | Jan 2019 – Feb 2021 | Dhaka, Bangladesh | Part-time

- Delivered GIS and remote sensing analysis for multiple research projects, using Excel, SPSS, ArcGIS, QGIS, and ERDAS Imagine.
- Supported technical reporting and documentation for project deliverables.

Executive Management Team Member | Group Mappers | Aug 2020 – Oct 2020 | Dhaka, Bangladesh | Part-time

- Conducted data analysis, processing, and visualization; developed implementation methodologies for project deliverables.

Education

M.Sc. Geography & Environment CGPA 3.57/4.00
Jagannath University, Dhaka, Bangladesh 2019 – 2020
Applied GIS, Remote Sensing, Digital Image Processing

B.Sc. Geography & Environment CGPA 3.36/4.00
Jagannath University, Dhaka, Bangladesh 2016 – 2019
GIS Fundamentals, Cartography, Geospatial Analysis

Publications

- Tushar et al. (2022). Land Use-Land Cover and Change Detection post-classification of Dhaka City Corporation Area (1972–2020). *Jamal Nazrul Islam National Conference 2022*, Chittagong, Bangladesh.
- Quader et al. (2022). Factors of land cover change of Dhaka city through geospatial techniques. *Earth Systems and Environment*, 5(3), 105–119.
- Tushar et al. Disaster risk reduction through mangrove management: A case study of Sundarbans and surroundings. *Jagannath University Journal of Life and Earth Sciences*. (In progress)

Academic Fieldwork

- **2016:** Household and cultural survey, Lawachara, Sreemangal, Moulvibazar.
- **2017:** Socio-economic and security study of the Rohingya population, Ukhia, Cox's Bazar.
- **2018:** River habitat survey, Karatoya River basin (Panchagarh, Nilphamari, Lalmonirhat).
- **2019:** Land-use and environmental survey, Cox's Bazar (vegetation change, water quality, climate impacts on livelihoods).

Professional Activities & Contributions

- **GIS Trainer**, Geoinformatics Earth Observation Research Center (`https://youtube.com/@georc`): practical GIS and Remote Sensing video tutorials.
- **Volunteer, Group Mappers:** crowdsourced mapping (COVID-19 tracking, Dengue risk mapping).
- **Volunteer, Green Voice:** river conservation support through geospatial data and mapping.

Trainings & Certifications

- Cadastral Map Digitizing Using ArcGIS – GEOMARK Limited (Sep 2022)
- The Crossroad of Exploring Geospatial Science – MORU (Aug 2022)
- GIS Software Technology Conference 2020 – SuperMap GIS (Oct 2020)
- Introduction to NASA's "Black Marble" Night Lights Data – NASA (Dec 2020)
- Web GIS and Web Mapping: Basics of Open Source Platforms – Udemy (Nov 2019)
- GIS for Beginners: Introduction to GIS – GroupMappers (May 2019)
